

THE SECRETARY OF HEALTH AND HUMAN SERVICES
WASHINGTON, D.C. 20201

FEB 14 1992

The Honorable Dan Quayle
President of the Senate
Washington, D.C. 20510

Dear Mr. President:

It is my privilege to transmit to the Congress the 1992 Surgeon General's report on the health consequences of smoking as mandated by Section 8(a) of the Public Health Cigarette Smoking Act of 1969 (Pub. L. 91-222). The report was prepared by the Centers for Disease Control's Office on Smoking and Health in conjunction with the Pan American Health Organization.

The topic of this report, Smoking in the Americas, reflects a concern for the broader problems posed by tobacco consumption. The report explores the historical, social, economic, and regulatory aspects of smoking in the Western Hemisphere. It defines the current extent of tobacco control activities in the countries of the Americas and stresses the need for regional coordination and cooperation in our efforts to create a smoke-free society.

The countries of North America--the United States and Canada--are in the midst of a major epidemic of smoking-related disease, including cancer, heart disease, chronic obstructive lung disease, and adverse outcomes of pregnancy. The countries of Latin America and the Caribbean now show evidence of a rising prevalence of smoking, particularly among young people, and in the absence of efforts to decrease tobacco use, are likely to be swept by a similar epidemic.

I believe that we in the United States must provide leadership through continued efforts to control tobacco consumption and prevent the uptake of smoking by young people. In addition, I believe that we must participate fully in regional efforts to develop effective smoking-control programs.

Sincerely,

Louis W. Sullivan
Louis W. Sullivan, M.D.
